Story

This adventure is set in the not-too-distant future...

Earth's major cities have been ravaged by giant, terrifying creatures known as Gigants. Across the globe, military forces from every nation attempted to counter the attacks but, to their horror, failed miserably. In a twist of fate, it was reported that a boy named Ichiya Amakaze defeated a Gigant.

The boy defeated the Gigants using a mysterious power called the Yorigami. This victory was short-lived, however. Ichiya lost control of his power and tragically destroyed the city he tried so hard to protect. After this fateful experience, he fell unconscious. Ichiya was then detained and sent to a safe location where his fate would soon unfold...

What are the Gigants?!

Gigants are mysterious, alien life-forms that have invaded Earth. Gigants of various shapes and sizes have been discovered, and they generally take upon forms of beasts from legend. However, unlike those mythical beasts, Gigants do not harbor a brilliant, celestial aura. Whatever aura they do possess is something much more vile...
